Rasel Ahammed

Software Engineer — Cross-Platform Mobile Developer (React Native & Expo) — Full-Stack JavaScript

+8801836849353 rasel.cse.green@gmail.com Linkedin Github Portfolio MobileMint

Professional Summary

Software Engineer with expertise in cross-platform mobile development (React Native, Expo) and full-stack web development (JavaScript, TypeScript, React.js, Next.js, Node.js, MongoDB), specializing in real-time applications, AI-powered platforms, and cloud deployments. Founder of MobileMint, an independent studio with 11 Android apps published on Google Play. Passionate about scalable applications, API development, and seamless user experiences.

Skills

Languages: C, C++, Java, JavaScript, TypeScript, Python, PHP, SQL
Frontend: JavaScript, TypeScript, React.js, Redux, React Query, Next.js, HTML/CSS, Tailwind CSS
Backend: Node.js, Express.js, MongoDB, Mongoose, SQL, JWT, MySQL, PostgreSQL, GraphQL, REST APIs
DevOps & Tools: Docker, Nginx, Git, GitHub, Firebase, Cloud Deployment, Stripe

Work Experience

Software Engineer
Dhrubok Info Tech Services Ltd - Shyamoli, Dhaka July 2026 – Present

- Leading development of TaskATask, a cross-platform mobile app (React Native, Expo) for Android, iOS, and web.
- Developed audio call, video call, and conference call features using Twilio Video, with CallKit and PushKit on iOS and ConnectionService on Android for native call handling.
- Responsible for the DBL Go admin panel, the digital banking product of Dhaka Bank, built with Next.js.

Junior Software Engineer - Frontend
Dhrubok Info Tech Services Ltd - Shyamoli, Dhaka April 2025 – June 2026

- Built Sammenté, a multi-tenant health insurance SaaS platform (Next.js, TypeScript) covering tenant onboarding with white-label branding, OCR-based beneficiary data extraction, AI-assisted claims validation, automated billing, and WhatsApp/email notifications.
- Developing modern, responsive web interfaces using React.js and Next.js.
- Building and maintaining UI components with reusable design patterns and Tailwind CSS.
- Collaborating with designers and backend developers to deliver smooth, high-performance user experiences.

Full Stack Developer
Life Story - New South Wales, Australia July 2024 – December 2024

- Led full-cycle development of an AI-driven book-writing platform, from architecture design to deployment.
- Developed and deployed an AI-powered book-writing platform with React.js, Node.js, and MongoDB.
- Integrated OpenAI's GPT models for rephrasing, tone adjustments, and keyword-based content generation.
- Implemented Stripe payment processing for secure subscription management and transactions.

Full Stack Developer
KitMuser - United Arab Emirates February 2024 – July 2024

- Implemented real-time chat functionality using Socket.io for seamless user interaction.
- Built an interactive social feed supporting reels, posts, and live streaming.
- Ensured secure authentication with OAuth and JWT-based token management.
- Deployed and scaled the platform on a cloud server, ensuring high availability and performance.

Education

Green University of Bangladesh, Dhaka
BSC in Computer Science and Engineering - **CGPA** - **3.77 / 4.0** Jan 2022 – Jan 2026

Certifications

Mastering Git & GitHub (Udemy) · Mastering HTML & CSS (Udemy) · Vice Chancellor's Award
